Buenos Aires, Argentina

SUMMARY

React & React Native Developer (5+ years) engineering scalable mobile and web platforms. Focused on Clean Architecture, SOLID principles, strict TypeScript, and separating business logic from UI. Experienced in native build automation and App Store / Google Play releases. Pragmatic adopter of spec-first development and AI-assisted workflows. Fluent in English with international team experience.

SKILLS

React Native · React · TypeScript · Clean Architecture · SOLID · Redux Toolkit · TanStack Query

Native Builds (Gradle / Schemes) · REST APIs · TDD (Jest) · AI Workflows (Cursor / Claude) · Git Flow

PROFESSIONAL EXPERIENCE

React Native Developer **Temperies** - Remote (USA) November 2024 - Present

- Engineered core features and refactored legacy modules for FasterWay (50k+ MAU), leveraging AI-assisted workflows (Cursor/Claude) to accelerate delivery.
- Led React Native upgrade, resolving native SDK conflicts and maintaining continuous store releases.
- Overhauled Google Analytics event tracking architecture, significantly improving data integrity and user telemetry for product decisions.

React Native Developer **Whiteboard Games** - Buenos Aires, Argentina November 2023 - November 2024

- Partnered with stakeholders to deliver a high-performance mobile app for an elite European football club.
- Implemented secure token-based authentication, gamified achievements, and cached profile state layers.
- Managed App Store and Google Play releases, using custom Android Gradle flavors and iOS Xcode schemes.

React Native Developer **Inside Dark Studio** - Buenos Aires, Argentina September 2023 - January 2024

- Built an urban transportation app from scratch, integrating the ICP blockchain layer.
- Implemented interactive route calculations via Google Maps API and secure checkout with Stripe.

FullStack Developer **Freelance Projects** - Buenos Aires, Argentina September 2022 - July 2023

- Built GreenCycle in a collaborative team (React Native, MapLibre, Reanimated) and Movee (React, GraphQL)
- Architected decoupled, type-safe modules with responsive UI states and custom reusable hooks.

React Native Developer **Fizzmod** - Buenos Aires, Argentina December 2021 - September 2022

- Developed reusable e-commerce components and modules, optimizing performance under Scrum workflows.
- Practiced Test-Driven Development (TDD) with Jest, reducing regression rates in core flows.

LANGUAGES

English IELTS (Band 7)

French DELF B2

Italian DELF B1

German Zentrale Deutschprüfung I & II

EDUCATION

Plataforma5 June 2021 - September 2021

Full Stack Software Development Bootcamp.

University of Buenos Aires January 2001 - December 2003

Coursework in Computer Science.
